8. Evaluation and Response	8
Annex 1 - Definitions	9
Annex 2 - Trust Data Protection Procedure	10

1. Policy Statement

- 1.1 Exceed Academies Trust is committed to the protection of all personal data and special category personal data for which we are the data controller.
- 1.2 The law imposes significant fines for failing to lawfully process and safeguard personal data and failure to comply with this policy may result in those fines being applied.
- 1.3 All members of our workforce must comply with this policy when processing personal data on our behalf. Any breach of this policy may result in disciplinary or other action.

2. About This Policy

- 2.1 This policy informs all of our workforce on dealing with a suspected or identified data security breach.
- 2.2 In the event of a suspected or identified breach, the Trust must take steps to minimise the impact of the breach and prevent the breach from continuing or reoccurring.
- 2.3 Efficient internal management of any breach is required, to ensure swift and appropriate action is taken and confidentiality is maintained as far as possible.
- 2.4 The Trust must also comply with its legal and contractual requirements to notify other organisations including the Information Commissioners Office (“the ICO”) and where appropriate data subjects whose personal data has been affected by the breach. This includes any communications with the press.
- 2.5 Failing to appropriately deal with and report data breaches can have serious consequences for the Trust and for data subjects including:
 - 2.5.1 identity fraud, financial loss, distress, or physical harm;
 - 2.5.2 reputational damage to the Trust; and
 - 2.5.3 fines imposed by the ICO.

3. Definition of Data Protection Terms

- 3.1 All defined terms in this policy are indicated in **bold** text, and a list of definitions is included in Annex 2 to this policy.

4. Identifying a Data Breach

- 4.1 A data breach is a breach of security leading to the accidental or unlawful destruction, loss, alteration, unauthorised disclosure of, or access to, personal data.

4.2 This could be the result of a breach of cyber security, such as a hack or virus, or it could be the result of a breach of physical security such as loss or theft of a mobile device or paper records. A data breach includes loss of data and so does not have to be the result of a conscious effort of a third party to access the data. Some examples of potential data breaches are listed below:

4.2.1 Leaving a mobile device on a train;

4.2.2 Theft of a bag containing paper documents;

4.2.3 Destruction of the only copy of a document; and

4.2.4 Sending an email or attachment to the wrong recipient; and

4.2.5 Using an unauthorised email address to access personal data; and

4.2.6 Leaving paper documents containing personal data in a place accessible to other people.

5. Internal Communication

Reporting a data breach upon discovery – Refer to Appendix 2 Trust Data Breach Procedure

5.1 If any member of our workforce suspects, or becomes aware, that a data breach may have occurred (either by them, another member of our workforce, a data processor, or any other individual) then they must contact the Data Protection Officer, Ruth Jarvis, (“the DPO”) immediately at:

info@exceedacademiestrust.co.uk or 01274 086490

Where a member of our workforce works in a school, they must also immediately notify the Headteacher of that school.

5.2 The data breach may need to be reported to the ICO and notified to data subjects. This will depend on the risk to data subjects. The DPO must always be consulted in making a decision as to whether to report a data breach to the ICO. Initial investigations will inform as to whether the data breach should be reported.

5.3 If it is considered to be necessary to report a data breach to the ICO then the Trust must do so within 72 hours of discovery of the breach.

5.4 The Trust may also be contractually required to notify other organisations of the breach within a period following discovery.

5.5 It is therefore critically important that whenever a member of our workforce suspects that a data breach has occurred, this is reported internally to the DPO immediately.

5.6 Members of our workforce who fail to report a suspected data breach could face disciplinary or other action.

Investigating a suspected data breach

5.7 In relation to any suspected data breach the following steps must be taken as soon as possible. These do not have to be carried out as individual tasks, and the most appropriate way of dealing with any breach will depend on the nature of the breach and the information available at any time.

Breach minimisation:

5.8 The first step must always be to identify how the data breach occurred, the extent of the data breach, and how this can be minimised. The focus will be on containing any data breach and recovering any personal data. Relevant departments must be involved, such as IT, to take technical and practical steps where appropriate to minimise the breach. Appropriate measures may include:

5.8.1 remote deactivation of mobile devices;

5.8.2 shutting down IT systems;

5.8.3 contacting individuals to whom the information has been disclosed and asking them to delete the information; and

5.8.4 recovering lost data.

Breach investigation:

5.9 When the Trust has taken appropriate steps to minimise the extent of the data breach it must commence an investigation as soon as possible to understand how and why the data breach occurred. This is critical to ensuring that a similar data breach does not occur again and to enable steps to be taken to prevent this from occurring.

5.10 Technical steps are likely to include investigating, using IT forensics where appropriate, to examine processes, networks, and systems to discover:

5.10.1 what data/systems were accessed;

5.10.2 how the access occurred;

5.10.3 how to fix vulnerabilities in the compromised processes or systems;

5.10.4 how to address failings in controls or processes.

5.11 Other steps are likely to include discussing the matter with individuals involved to appreciate exactly what occurred and why and reviewing policies and procedures.

Breach analysis:

5.12 In order to determine the seriousness of a data breach and its potential impact on data subjects, and so as to inform the Trust as to whether the data breach should be reported to the ICO and notified to data subjects, it is necessary to analyse the nature of the data breach.

5.13 Such an analysis must include:

- 5.13.1 the type and volume of personal data which was involved in the data breach;
- 5.13.2 whether any special category personal data was involved;
- 5.13.3 the likelihood of the personal data being accessed by unauthorised third parties;
- 5.13.4 the security in place in relation to the personal data, including whether it was encrypted;
- 5.13.5 the risks of damage or distress to the data subject.

5.14 The ICO's personal data breach reporting form must be completed in every case of a suspected breach, and retained securely, whether or not a decision is ultimately made to report the data breach. This will act as evidence as to the considerations of the Trust in deciding whether or not to report the breach. The latest version of the personal data breach reporting form should be downloaded from the ICO website: <https://ico.org.uk/for-organisations/report-a-breach/personal-data-breach/>

5.15 As part of the breach analysis process, if they feel it is appropriate, the DPO may complete an online 'personal data breach self-assessment' (<https://ico.org.uk/for-organisations/report-a-breach/personal-data-breach-assessment/>) and/or contact the ICO helpline (0303 123 1113) for advice and guidance.

6. External Communication

6.1 All external communication is to be managed and overseen by the DPO and the Headteacher.

Law Enforcement

6.2 The DPO and the Headteacher will assess whether the data breach incident requires reporting to any law enforcement agency, including the police. This will be informed by the investigation and analysis of the data breach, as set out above.

6.3 The DPO and the Headteacher shall coordinate communications with any law enforcement agency.

Other organisations

6.4 If the data breach involves personal data which we process on behalf of other organisations then we may be contractually required to notify them of the data breach.

6.5 The Trust will identify as part of its investigation of the data breach whether or not this is the case and any steps that must be taken as a result.

Information Commissioner's Office

- 6.6 If the Trust is the data controller in relation to the personal data involved in the data breach, which will be the position in most cases, then the Trust has 72 hours to notify the ICO if the data breach is determined to be notifiable.
- 6.7 A data breach is notifiable unless it is unlikely to result in a risk to the rights and freedoms of any individual. The DPO will make an assessment of the data breach against the following criteria taking into account the facts and circumstances in each instance:
- 6.7.1 the type and volume of personal data which was involved in the data breach;
 - 6.7.2 whether any special category personal data was involved;
 - 6.7.3 the likelihood of the personal data being accessed by unauthorised third parties;
 - 6.7.4 the security in place in relation to the personal data, including whether it was encrypted;
 - 6.7.5 the risks of damage or distress to the data subject.
- 6.8 If a notification to the ICO is required then see part 7 of this policy below.

Other supervisory authorities

- 6.9 If the data breach occurred in another country or involves data relating to data subjects from different countries then the DPO will assess whether notification is required to be made to supervisory authorities in those countries.

Data subjects

- 6.10 When the data breach is likely to result in a high risk to the rights and freedoms of the data subjects then the data subject must be notified without undue delay. This will be informed by the investigation of the breach by the Trust.
- 6.11 The communication will be coordinated by the DPO and will include at least the following information:
- 6.11.1 a description in clear and plain language of the nature of the data breach;
 - 6.11.2 the name and contact details of the DPO;
 - 6.11.3 the likely consequences of the data breach;
 - 6.11.4 the measures taken or proposed to be taken by Trust to address the data breach including, where appropriate, measures to mitigate its possible adverse effects.

6.12 There is no legal requirement to notify any individual if any of the following conditions are met:

- 6.12.1 appropriate technical and organisational protection measures had been implemented and were applied to the data affected by the data breach, in particular, measures which render the data unintelligible to unauthorised persons (e.g. encryption);
- 6.12.2 measures have been taken following the breach which ensure that the high risk to the rights and freedoms of the data subject is no longer likely to materialise;
- 6.12.3 it would involve disproportionate effort to contact individuals. In which case a public communication or similar equally effective measure of communication to the data subjects shall be issued.

6.13 For any data breach, the ICO may mandate that communication is issued to data subjects, in which case such communication must be issued.

Press

6.14 Staff shall not communicate directly with the press and shall treat all potential data breaches as confidential unless otherwise instructed in writing by the DPO.

6.15 All press enquiries shall be directed to the Chief Operating Officer, Ruth Jarvis [info@exceedacademiestrust.co.uk or 01274 086490].

7. Producing an ICO Personal Data Breach Reporting Form

7.1 All members of our workforce are responsible for sharing all information relating to a data breach with the DPO, which will enable the Personal Data Breach Reporting Form to be completed. The personal data breach reporting form should be downloaded from the ICO website (<https://ico.org.uk/for-organisations/report-a-breach/personal-data-breach/>) to ensure that the latest version is used.

7.2 When completing the Personal Data Breach Reporting Form all fields must be completed, and as much detail as possible should be provided.

7.3 The DPO may require individuals involved in relation to a data breach to each complete relevant parts of the Personal Data Breach Reporting Form as part of the investigation into the data breach.

7.4 If any member of our workforce is unable to provide information when requested by the DPO then this should be clearly reflected in the Personal Data Breach Reporting Form together with an indication as to if and when such information may be available.

7.5 In the wake of a data protection breach, swift containment and recovery of the situation is vital. Every effort should be taken to minimise the potential impact on affected individuals, and details of the steps taken to achieve this should be included in this form.

- 7.6 If it is determined that the breach should be reported to the ICO, details of how to submit the Personal Data Breach Reporting Form included on the form itself or on the ICO website (<https://ico.org.uk/for-organisations/report-a-breach/personal-data-breach/>) should be followed.

8. Evaluation and Response

- 8.1 Reporting is not the final step in relation to a data breach. The Trust will seek to learn from any data breach.
- 8.2 Therefore, following any breach an analysis will be conducted as to any steps that are required to prevent a breach occurring again. This might involve a step as simple as emailing all relevant members of our workforce to reinforce good practice, or providing additional training, or may in more serious cases require new technical systems and processes and procedures to be put in place.

Annex 1 - Definitions

Term	Definition
Data	is information which is stored electronically, on a computer, or in certain paper-based filing systems
Data Subjects	for the purpose of this policy include all living individuals about whom we hold personal data. This includes pupils, our workforce, staff, and other individuals. A data subject need not be a UK national or resident. All data subjects have legal rights in relation to their personal information
Personal Data	means any information relating to an identified or identifiable natural person (a data subject); an identifiable natural person is one who can be identified, directly or indirectly, in particular by reference to an identifier such as a name, an identification number, location data, an online identifier or to one or more factors specific to the physical, physiological, genetic, mental, economic, cultural, or social identity of that natural person
Data Controllers	are the organisations which determine the purposes for which, and the manner in which, any personal data is processed. They are responsible for establishing practices and policies in line with Data Protection Legislation. We are the data controller of all personal data used in our business for our own commercial purposes
Data Users	are those of our employees whose work involves processing personal data. Data users must protect the data they handle in accordance with this data protection policy and any applicable data security procedures at all times
Data Processors	include any person or organisation that is not a data user that processes personal data on our behalf and on our instructions
Processing	is any activity that involves use of the data. It includes obtaining, recording, or holding the data, or carrying out any operation or set of operations on the data such as collection, recording, organisation, structuring, storage, adaptation or alteration, retrieval, consultation, use, disclosure by transmission, dissemination or otherwise making available, alignment or combination, restriction, erasure, or destruction. Processing also includes transferring personal data to third parties
Special Category Personal Data	includes information about a person's racial or ethnic origin, political opinions, religious or philosophical beliefs, trade union membership, physical or mental health or condition or sexual life, or genetic or biometric data
Workforce	Includes, any individual employed by [School/Trust/Academy] such as staff and those who volunteer in any capacity including Governors [and/or Trustees / Members/ parent helpers]

Annex 2 – Trust Data Breach Procedure

Data Breaches Should be reported immediatly to:
Trust Data Protection Officer: Ruth Jarvis
info@exceedacademiestrust.co.uk

Give as much information as possible

The data breach will be logged in a registry by the Trust

If determinded to be ICO notifiable, the ICO will notified within 72 hours by the DPO

An investigation will take place by the DPO, as appropriate

Recommendations for improvement will be shared and control measures implemented
